# Introduction and Overview

The VeChainThor Mobile Wallet application will be available for download in the Apple App Store and the Android App Market as early as **July 9th, 2018**.

The main functions of the VeChainThor Wallet include:

- creating a wallet;
- transferring and receiving VET and VTHO;
- X Node binding (the process of migrating your X Node off of MEW);
- collecting VeThor rewards, including the base generation rate, any VeChain Foundation rewards, and any Economic Node or X Node VeThor rewards;
- swapping any other VEN tokens for VET tokens.

---

For the purposes of this document, the following naming conventions and terms are used:

**VEN** refers to the original ERC20 VeChain token.

**VET** refers to the newly-issued VeChainThor token, for which you will swap your held VEN for.

**VTHO** refers to the newly-created and issued VeThor token, which powers transactions on the VeChainThor blockchain. For more details on VeThor tokens and how they are used, and how VTHO and VET tokens relate to each other, please see the VeChain Development Plan and Whitepaper.

**BINDING** refers to the process of validating an ERC20 address with the VeChain Foundation for the purposes of X Node migration and/or VEN/VET token swapping.

**INTERMEDIARY ADDRESS** refers to a unique ERC20 address generated by and inside your VeChainThor Mobile Wallet application, that is used in the binding process. (This will become clearer upon reading the remainder of this document.)

## Table of Contents

1.	X Node VET Token Swap	3
2.	Non X Node holders	9

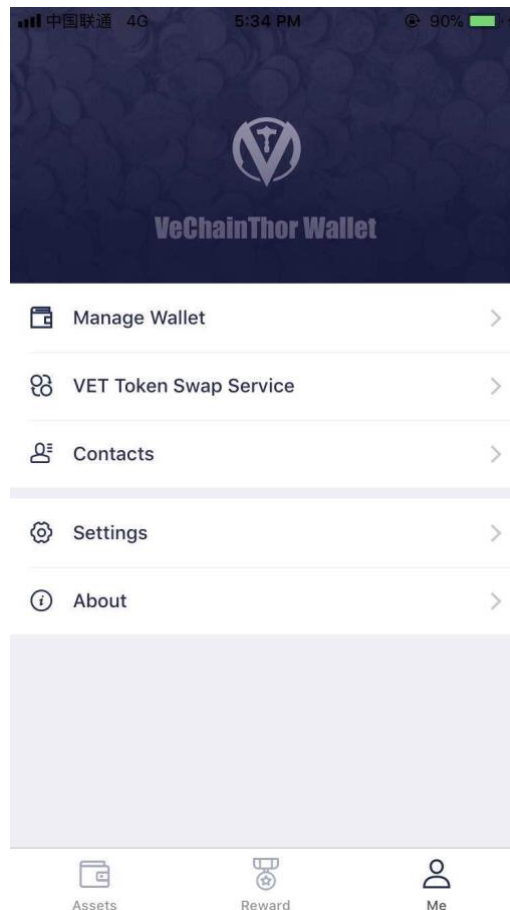

## 1. X Node VET Token Swap

If you would prefer to not use the exchanges for your token swap, you may use the VeChainThor Mobile Wallet Token Swap service.

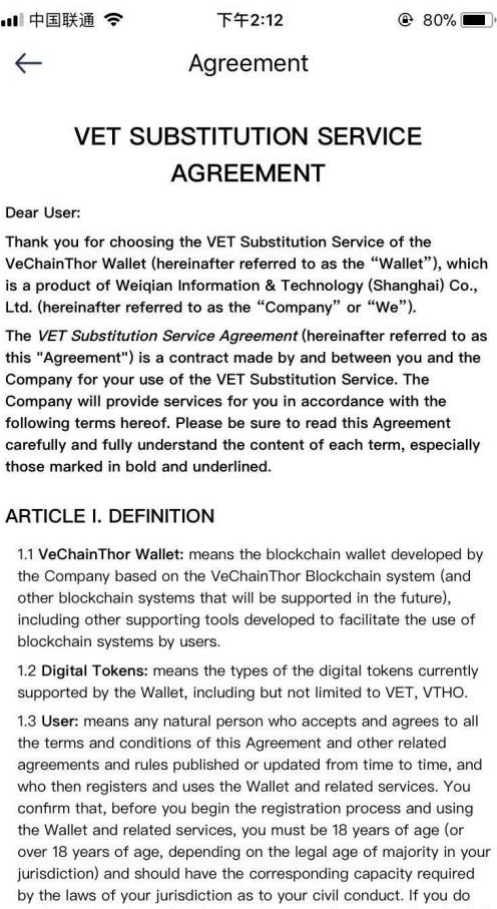

The date when the VeChainThor Wallet makes the VET Token Swap service available is **August 10, 2018 at 12 PM UTC+8**.

After successfully binding your ERC20 X Node address, please follow the steps as below in order to complete the VET token swap using the VeChain Token Swap service included in the mobile wallet application.

**Step 1:** Click ‘[VET token swap service](#)’ in wallet right menu bar or ‘[Me](#)’ and start VET swap service.

**Step 2:** Read and comprehend the ‘[Token Swap Service Agreement](#)’ and click ‘start’.

### Copy Intermediary Address

Please double confirm the receiver's address and follow the manual to complete the transaction

Sender's Address:

0x1ad0ee9f0343d12Ch7F2F2R73DC979ce8fa25482

Receiver's Address (Intermediary Address):

0x0000000000000000000000D6E...F72

Amount:

0.01 VEN

Copy Intermediary Address

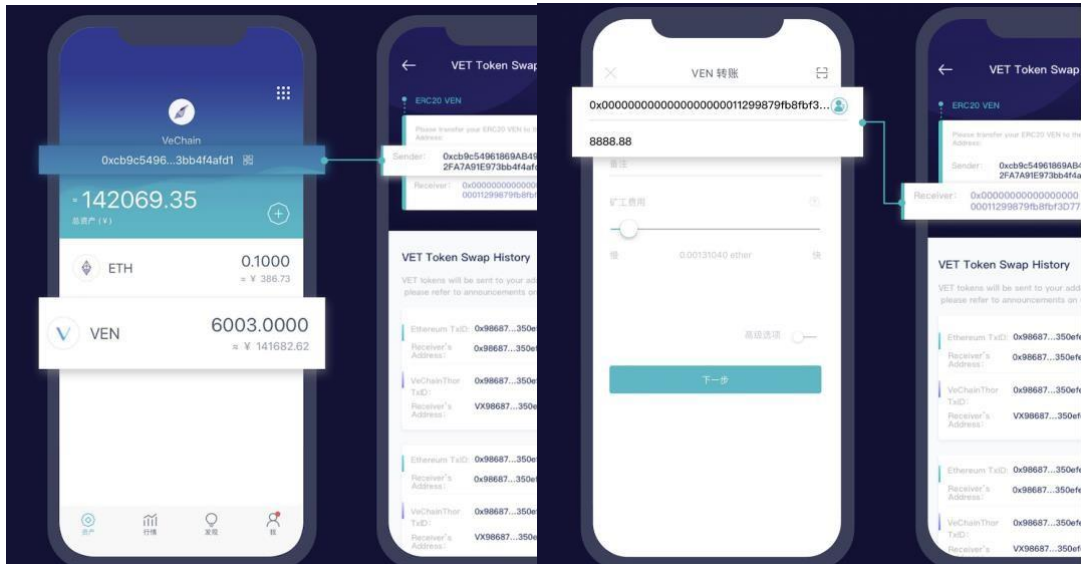

Email Intermediary Address

0x0000000000000000000000D6E5A5C2fa34C23ceF7

Copy the intermediary address.

- **Sender's address:** Your Ethereum address;
- **Receiver's address:** Your intermediary address (Ethereum address);
- **Amount:** Input the token swap VEN amount.

**Step 4:** From your Ethereum ERC20 wallet (e.g., MyEtherWallet), use the original X Node wallet address on Ethereum to transfer the remainder of your ERC20 VEN to the intermediary address you copied from the app (pictured above).

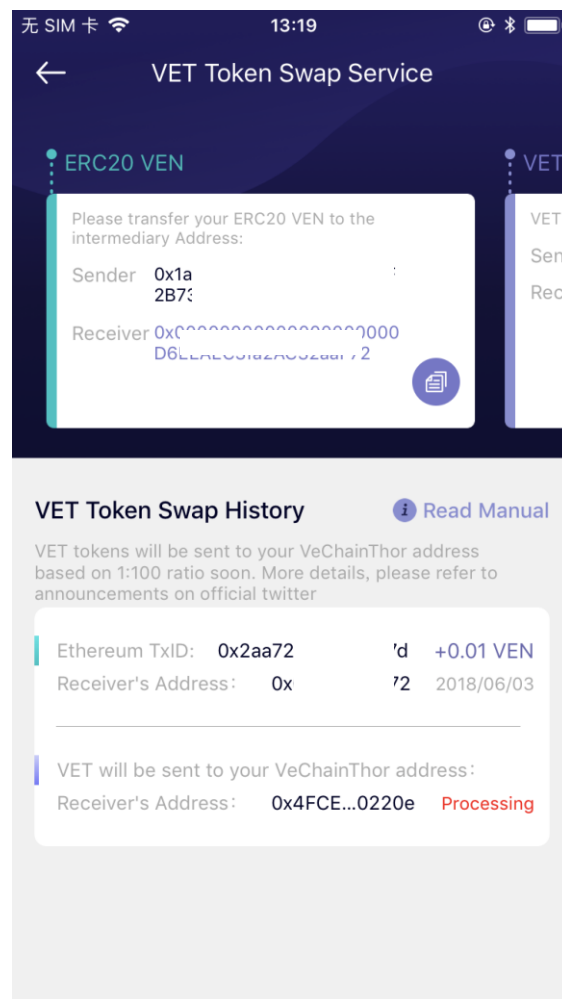

Note: We will only process the swap for the VEN sent from the original X Node Ethereum address that was bound with the intermediary address. If you send the VEN from other addresses, you would have to go through additional process which will delay your token swap process. And it depends on the capacity of the support team.

**Step 5:** The VeChain Foundation continuously monitors the intermediary address. Once the ERC20 VEN is received in that address from the bound X node Ethereum address, the VeChain Foundation will transfer VET (1:100 ratio) to your VeChainThor Wallet address in a periodical manner. There is no minimum VEN amount requirement for the token swap service.

**Due to security concerns, token swap via the VeChainThor Mobile Wallet Token Swap Service will not happen in real time. Instead, it will take up to 24 hours (*marked as Processing*) from the completion of the transfer for your new VET (1:100) to appear in your wallet.**

## 2. Non X Node holders

For non X Node holders, please download the VeChainThor Wallet on the Apple App Store or Android App market.

We will start the VET Token Swap via the mobile wallet at **August 10, 2018 at 12 PM UTC+8.**

**Step 1:** Click ‘[VET token swap service](#)’ in wallet right menu bar or ‘[Me](#)’ and start VET swap service.

**Step2:** Read and comprehend the ‘Token Swap Service Agreement’ and click ‘Start’.

**VET Token Swap Service**

ERC20 VEN      VET

**1 VEN = 100 VET**

1. Transfer your ERC20 VEN to the intermediary address

Ethereum Wallet Address → Receiver's Address (Intermediary Address)

2. VeChain Foundation monitors ERC20 VEN received in the intermediary address

3. VET will be sent out based on the 1:100 ratio to your bound VeChainThor address

VeChainThor Wallet      VeChain Foundation

☒ VET Token Swap Service Agreement

**VET Token Swap Service Agreement**

Dear User:

Thank you for choosing the VET Token Swap Service of the VeChainThor Wallet (hereinafter referred to as the "Wallet"), which is a product of Shanghai Weilian Information Technology Co., Ltd. (hereinafter referred to as the "Company" or "We").

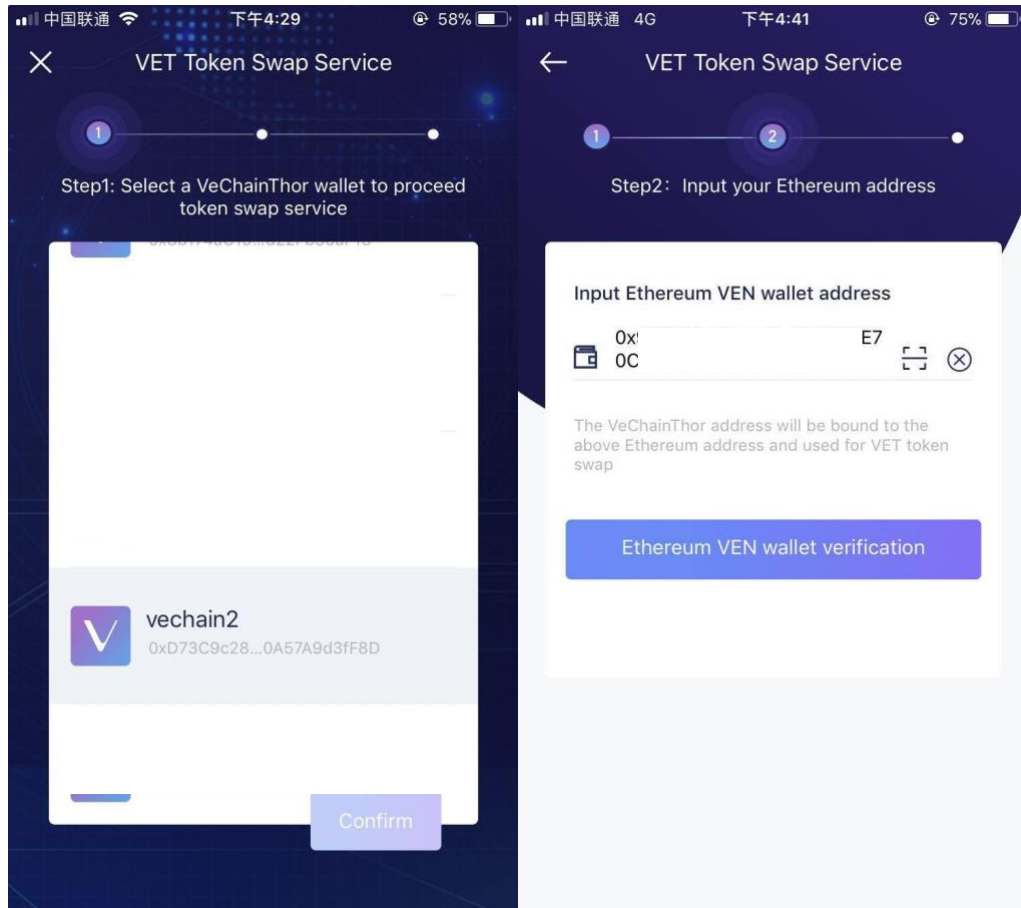

The *VET Token Swap Service Agreement* (hereinafter referred to as this "Agreement") is a contract made by and between you and the Company for your use of the VET Token Swap Service. The Company will provide services for you in accordance with the following terms. Please be sure to read this Agreement carefully and fully understand the content of each term, especially those marked in bold and underlined.

**ARTICLE I. DEFINITION**

- VeChainThor Wallet:** means the blockchain wallet developed by the Company based on the VeChainThor Blockchain system (and other blockchain systems that will be supported in the future), including other supporting tools developed to facilitate the use of blockchain systems by users.
- Digital Tokens:** means the types of the digital tokens currently supported by the Wallet, including but not limited to VET, VTHO.
- VEN:** means the digital tokens issued by the Company based on Ethereum ERC20.
- VET:** means the original digital tokens used in the economic and commercial activities occurred on the VeChainThor Blockchain, acting as the media of value.
- User:** means any natural person who accepts and agrees to all the terms and conditions of this Agreement and other related agreements and rules published or updated from time to time, and who registers and uses the Wallet and related services. You confirm that, before you begin the registration process and using the Wallet and related services, you must be 18 years of age (or

**Step 3:** Select the VeChainThor address to receive the VET.

Input your VEN Ethereum address and verify to enter token swap manual page, and swap token according to manual.

**Step 6:** The VeChain Foundation continuously monitors the intermediary address. Once the ERC20 VEN is received in that address from the bound Ethereum address, the VeChain Foundation will transfer VET (1:100 ratio) to the VeChainThor Wallet address in a periodical manner. There is no minimum VEN amount requirement for the token swap service.

**Due to security concerns, token swap via the VeChainThor Mobile Wallet Token Swap Service will not happen in real time. Instead, it will take up to 24 hours (*marked as Processing*) from the completion of the transfer for your new VET (1:100) to appear in your wallet.**
